Subject: Microsoft Settlement

Please stop this case from going further there is nothing to be gained, the Government on behalf of the Public made fair and equitable settlement. And should be accepted by all States.

The Nine States holding should not supersede the will of the 41 States that have accepted the settlement. The majority deserves to be served. IF THIS GOES FURTHER THE BATTLE MAY BE WON BUT THE WAR WILL BE LOST!

THANK YOU FOR TAKING THE TIME TO READ THIS! Joseph Paoletti
